

DAFFODILS HIGH PUBLIC SCHOOL

NEWSLETTER OCTOBER 2019

“Explore. Dream. Discover – Mark Twain”

Dear parents,

The school focuses on holistic development in children. Keeping this in mind school had come up with activities that would help student’s overall development in the month of October.

Events:

Navratri Celebration

Navratri was celebrated with great enthusiasm and excitement by our tiny tots. The actual show had teachers and children dancing to Dandiya beats and Garba steps. The spirit of Navratri had descended on one and all that day. The Navratri event became an excellent example of celebration of tradition with joy and fervour at its fullest along with the discipline of students. All of them celebrated the day with joy and cheer. The positivity and energy exuberating out of the colourful costumes combined with the enthusiasm of dancing to the Dandiya folk songs made the entire day filled with giggles and laughter.

Science fest

Kids are always curious about their surroundings. They love to experiment, ask questions, and see how things work. So why not bank on their curiosity? A science fest was held on 19th October, 2019. Doing science experiments helps to develop a child’s resourcefulness, particularly their skills at goal-setting, planning, and problem-solving.

Students of Grade I gave presentation on the following topics:

I A -Teeth and types of teeth

I B –Digestive system,

I C- Respiratory System and Sense organs

All the kids presented the information confidently in front of their parents.

Grade 4 prepared themselves to show that ‘magic is science’ and ‘science is magic’ All of these experiments were done with easy-to-find ingredients to help tie what they know with something new to learn.
